
❖ Environmental Policy

Reeman Constructions is an established enterprise providing construction management services to clients throughout New South Wales.

Reeman Constructions is committed to reducing the impact of its operations on the environment. We acknowledge that as a service organisation we can minimise the negative impact of the following on construction projects:

- Land disturbance – erosion, contaminated stormwater, de-watering site, dust control and management of stockpiles
- Noise and vibration – operating hours, vehicles and equipment, traffic, noise abatement and vibration management
- Release of un-natural / hazardous materials to water
- Disposal of Hazardous Materials such as Asbestos and Led Paint
- Waste minimisation
- Storage of chemicals and fuel
- Road cleaning

We maintain and continuously improve a Management System that complies with the requirements of ISO 14001:2015 and all environmental legislation and other requirements which are relevant to Reeman Constructions.

Our environmental objectives are to:

- Minimise environmental impact to land, water, air, flora and fauna
- Prevention of pollution, protect the environment, preserve natural resources and conserve all heritage.
- minimising its own ecological footprint by pursuing environmental best practice and the prevention of pollution in office management and general construction operations.

To achieve these objectives, we shall act to:

- Ensure high levels of management and staff involvement in achieving stated objectives
- Continuously engage all stakeholders in meaningful consultation and communication
- Use suppliers, wherever possible, who have similar environmental objectives as ourselves and give preference to environmentally friendly products and equipment
- Measure our performance and use this information for the continual improvement of our services and Management System

We communicate this policy and its objectives in various ways to interested parties through mechanisms such as induction of new employees, scheduled team meetings, email alerts, and listing of our policy on our company website.

Reeman Constructions' environmental policy is applicable to our Directors and employees. It expresses our ongoing commitment to understand, abide by and regularly review these key principles and actions.

Shane Reeman
Director
